

# Next Generation Gravity Sensing

# SMG Company Overview

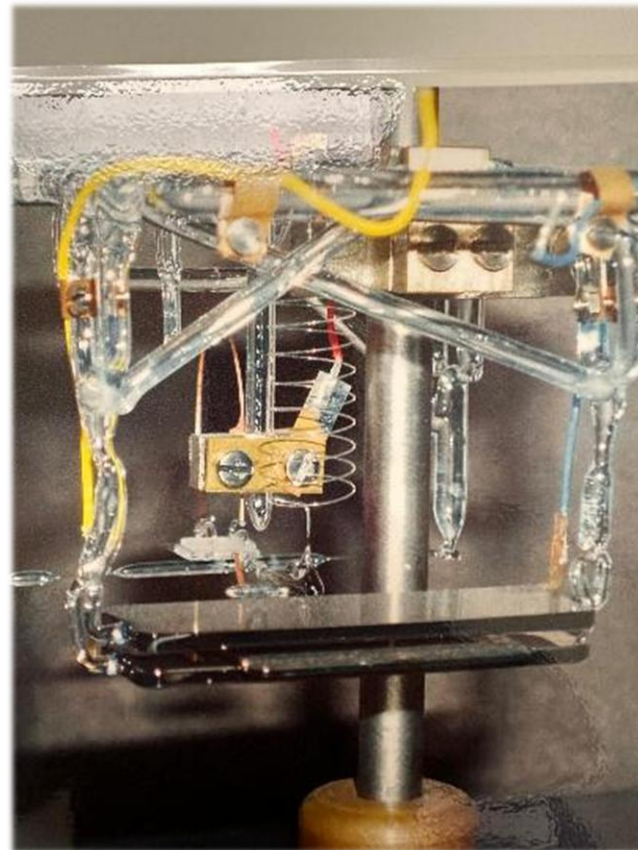

- Cambridge University spin-out
- World-leading in VBA MEMS
- Proprietary technology Patent protected

# A Step Change in Gravity Technology

## Existing gravity systems:

- Fragile
- Costly
- Individually made
- Highly optimised

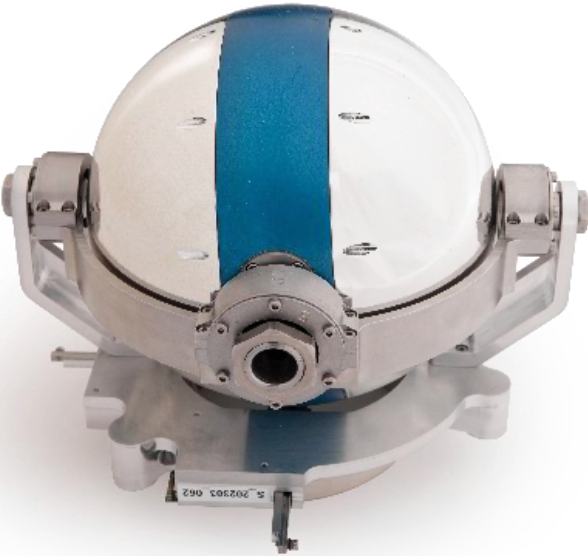

## SMG MEMS gravity sensors are:

- ✓ Robust
- ✓ Low Cost of Ownership
- ✓ Volume manufactured
- ✓ Batch produced
- ✓ Rapidly evolving

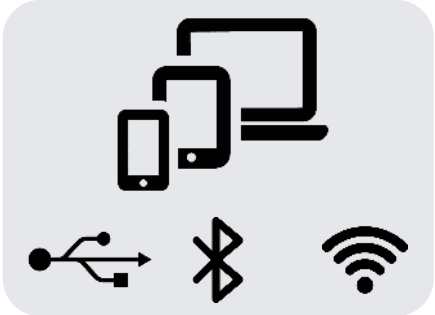

# GAIA-FIELD - Field Survey Ready

**Robust and resilient for field surveys and transport**

**Bluetooth, Wi-Fi, USB-C**  
**Simple connectivity**

**Twin batteries and USB-C power**  
**Full day battery life**

# Revolutionising Gravity Measurement Applications
