YOUNG PROFESSIONAL EVENT

20TH JUNE 2023, 2.45PM-4.45PM, P&J LIVE

Theme: “Energy Security in a mature North Sea basin”

Keynote Speaker: Brenda Wyllie, NNS/WoS Area Manager, NSTA

The DEVEX 2023 Young Professionals Committee invite you to attend this year’s YP Event, which focuses on the future of oil and gas-related careers in the North Sea Basin. Whilst the industry continues to support the move to Net Zero, there will still be a strong need for petroleum-based disciplines for many years to come, and this event offers the opportunity to meet and get advice from experienced industry professionals in a speed-mentoring and networking activity.

Mentor Panel:
Brenda Wyllie (NSTA),
Simone Silcock (Equinor),
Ruth Thomas
(Well Safe Solutions),
Mattheus Uijtenhout
(TotalEnergies)
plus more to be confirmed.

All attendees of the YP Event will then be invited to stay and join the main conference networking reception at the end of the day.

To sign up to this **FREE** event, please visit the **DEVEX** page on the SPE Aberdeen website.
