

## Technical Programme

**The 31st SPE ICoTA European Well Intervention Conference is the largest and longest established conference of its kind in Europe. This year we will address industry opportunities and challenges and how innovation in well interventions can enhance operational efficiency, improve sustainability, and maximise economic recovery.**

### Key Highlights

- Largest and longest established conference of its kind in Europe
- Quality keynote and panel sessions
- Share knowledge and network with 10 Operators on the Operator pavilion
- Four innovative Technology Demos
- Busy Exhibition showcasing latest technologies
- Deep dive into the Innovation Award finalists and reveal of the winner
- Multiple networking opportunities including reception and offsite social
- Well Intervention Back to Basics Session for YP and Early Career Professionals

**“Wellwork delivers the most effective cost per barrel, and we need to collaborate and innovate to deliver this in the North Sea. The SPE ICoTA European Well Intervention Conference continues to be a cornerstone for collaboration and innovation in our sector. As operators, we rely on these forums to challenge conventional thinking, share real-world case studies, and accelerate the adoption of technologies that improve safety, sustainability, and performance across our assets.”**

**Jim O’Leary, VP Wells North Sea, Mauritania, Senegal & Brazil, bp**

## Keynote Sessions

### Day 1

*Industry Trends and the Future*

**Anya Albot**  
Drilling & Wells Lead  
Rystad

**Ross Cygan-Taylor**  
Senior Wells Engineer  
NSTA

**Geoff Aberdein**  
Managing Partner  
True North

### Day 2

*The Industry Viewpoint of Europe and how innovation can improve efficiency and maximise economic recovery*

**Maurice Thomson**  
SVP Technical Services  
Harbour Energy

**Jim O'Leary**  
VP North Sea & Regions  
bp

**Rebecca Allison**  
COO Geothermal Wells  
NZTC

**Alan Quirke**  
VP Well Intervention  
& Integrity, Expro

## The Operator Stand

The Operator stand will be back this year, to offer you the chance to collaborate, network and promote new and established techniques in intervention technology to a much wider group of Operators. Make sure you visit the stand and tell the Operators what you can provide. Participating Operators include:

## Technology Demos

Four Innovative Technology Demos will take place over both lunch breaks which will be a deep dive into their applications and benefits.

## Innovation Award

Celebrating excellence in the well intervention industry, the ICoTA Innovation Award is presented to a service company or Operator that has pushed the boundaries of well intervention technology. The winner will be announced as part of a drinks reception at 15:50 on Day 2 in the Exhibition Hall.

## Networking Opportunities

The main networking reception will take place in the Exhibition Hall from 1700 on Day 1. This is an excellent opportunity to network with peers, senior leaders, exhibitors and speakers. Drinks will be provided.

Following that, we will have a Social Event at Macs, Union Street, which all delegates are invited to. Drinks and nibbles will be provided. Taxis will be available for booking and there will be a bus (first come first served)

Please **complete the form here** to confirm your attendance.

## Turbocharge Your Career: Well Intervention Basics for Young Professionals at SPE ICoTA 2025!

**Day 1 – 18th November from 14:00-15:30**

Are you a young professional, early career engineer, or new entrant to the oil and gas sector? Do you want to master the foundational concepts of Well Interventions and stand out from the crowd?

Join us for **6 x 15-minute, fast-paced, hands-on sessions** designed to cut through the jargon and give you the essential knowledge you need!

**This special, informal session — separate from the main conference schedule — is perfectly structured for quick learning:**

- **Short Presentation:** Get the core concepts quickly.
- **Equipment Demos:** See real-world tools and techniques in action.
- **Q&A Time:** Get your questions answered by industry experts.

Following this session you are welcome to attend the main Networking reception from 17:00.

To book to attend this session, **please complete the form here please complete the form here**

What You'll Learn in 90 Minutes:

| Session Topic        | Key Concepts                                                                                                            | Presented by               |
|----------------------|-------------------------------------------------------------------------------------------------------------------------|----------------------------|
| <b>Wireline 101</b>  | Basic tools, wireline rig-up (SL focus), and key components of tool strings                                             | <b>Oilenco</b>             |
| <b>Logging</b>       | Types of logging runs (GR/CCL) and how to interpret PLT and CBL logs                                                    | <b>SLB</b>                 |
| <b>Planning</b>      | Fundamentals of well planning, schematics, and well parameters                                                          | <b>Stimline</b>            |
| <b>DHSV</b>          | DHSV types (TR, WR, ambient), market options, installation, and testing                                                 | <b>Wellvene &amp; TAQA</b> |
| <b>Coiled Tubing</b> | Why you would use coil, additional functionality, and a general CT rig-up                                               | <b>Archer</b>              |
| <b>Subsea</b>        | Overview of subsea interventions (incl. SIL deployment) and additional risks/ functionality when using a boat vs. a rig | <b>Helix</b>               |

Please also note that if your colleague purchases a full-price ticket they can invite an early career professional ( $\leq 10$  years in industry) for FREE so you can attend the full conference programme.

Visit the ticket section of the **event page of the website here.**

# SPE ICoTA 31<sup>th</sup> European Well Intervention Conference

## TECHNICAL PROGRAMME DAY 1

|              |                                                                                                                                                                                                      |                     |
|--------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| <b>7:30</b>  | <b>Registration and Breakfast</b>                                                                                                                                                                    |                     |
| 8:30         | Opening Remarks - Alfredo Bustillo, 2025 Conference Chair                                                                                                                                            |                     |
| 8:35         | Keynote Session featuring Anya Albot, Drilling & Wells Lead, Supply Chain, Rystad; Geoff Aberdein, Managing Partner, True North & Ross Taylor, Senior Wells Engineer, North Sea Transition Authority |                     |
| 9:20         | Q&A                                                                                                                                                                                                  |                     |
| <b>10:00</b> | <b>Refreshments and Networking</b>                                                                                                                                                                   |                     |
| 10:30        | Rejuvenating A Late-life Offshore field Through Hydraulic Fracturing: The Successful Case History from North Alwyn                                                                                   | TotalEnergies       |
| 10:55        | Data-Driven Digitalisation Transforming Cost Estimation in Well Intervention                                                                                                                         | AkerBP              |
| 11:20        | Novel Fluid Placement Strategy: Lab-to-Field Execution for a Coiled Tubing Gas Shut-Off Treatment in a Highly Deviated Offshore Well                                                                 | bp Azerbaijan       |
| 11:45        | Step change in Wireline Subsea Intervention Lubricator Performance.                                                                                                                                  | SLB / TotalEnergies |
|              | <b>Techbytes</b>                                                                                                                                                                                     |                     |
| 12:10        | A New Era for Well Intervention Technology                                                                                                                                                           | Pipetech            |
| 12:15        | Permanently resolve Sustained Casing Pressure                                                                                                                                                        | Wellchem            |
| 12:20        | Methane Emissions Reduction Using KCI Products & Services                                                                                                                                            | KCI                 |
| 12:25        | Increasing Oil & Gas production efficiency: Multiphase CO2 Flushing for Enhanced Cleanliness & Efficiency in Long & Narrow Pipe Systems                                                              | IKM Testing UK      |
| <b>12:30</b> | <b>Lunch and Networking</b>                                                                                                                                                                          |                     |
| <b>13:10</b> | <b>Technology Demos</b>                                                                                                                                                                              |                     |
| 14:00        | Extended Coiled Tubing Straddle for Integrity Restoration: Three Deployment Cases from the Norwegian Continental Shelf                                                                               | SLB                 |
| 14:25        | Next Generation Completions Integrity Inspection: High-Resolution Acoustic Imaging for Micro-Anomaly Detection                                                                                       | DarkVision          |
| 14:50        | Challenges in maintenance and well integrity of ageing underground cavern gas storage assets in the UK                                                                                               | AtkinsRéalis        |
| <b>15:15</b> | <b>Refreshments and Networking</b>                                                                                                                                                                   |                     |
| 15:45        | Scaling New Heights: Coiled Tubing Intervention In A Mature Erskine Well.                                                                                                                            | Ithaca Energy       |
| 16:10        | Challenging Coiled Tubing Operations on an HP/HT well (J13)                                                                                                                                          | Harbour Energy      |
| 16:35        | Standalone Coiled Tubing Operation Involving Perforating Gun Deployment in HPHT Well – Minimizing Risks and Maximizing the Pentland Reservoir Potential                                              | TotalEnergies       |
| <b>17:00</b> | <b>Networking Reception</b>                                                                                                                                                                          |                     |
| <b>19:00</b> | <b>Social Night at Macs Pizzeria - Bus will depart at 18.30. Taxis available to book</b>                                                                                                             |                     |

# SPE ICoTA 31<sup>th</sup> European Well Intervention Conference

## TECHNICAL PROGRAMME DAY 2

|              |                                                                                                                                                                                                                            |                  |
|--------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|
| <b>8:00</b>  | <b>Registration and Breakfast</b>                                                                                                                                                                                          |                  |
| 9:00         | Opening Remarks - Kirsty Pratt, 2025 Conference Junior Chair                                                                                                                                                               |                  |
| 9:05         | Keynotes featuring Maurice Thomson, SVP – Technical Services - Harbour Energy; Jim O'Leary, VP North Sea & Regions, bp; Rebecca Allison, COO Geothermal, Wells, NZTC; Alan Quirke, VP Well Intervention & Integrity, Expro |                  |
| 10:05        | Q&A                                                                                                                                                                                                                        |                  |
| <b>10:45</b> | <b>Refreshments and Networking</b>                                                                                                                                                                                         |                  |
| 11:15        | A Well Intervention and Stimulation Alliance built on Trust, Technology, and Teamwork                                                                                                                                      | AkerBP           |

## Sponsorship Opportunities

### Platinum Sponsor

**£5,775 plus VAT**

- Main partner branding on all materials via ICoTA and SPE, pre, during and post conference
- Free exhibition stand space (3x2) worth £2295
- 5 free conference passes for both days

### Event Partner

**£3,638 plus VAT**

- Branding on all materials via ICoTA and SPE, pre, during and post conference
- 25% discount on exhibition space
- 3 free conference passes for both days

### Networking Reception Sponsorship

**£3,197 plus VAT**

- Branding on all materials via ICoTA and SPE, pre, during and post conference
- 1 free conference pass for both days

### Breakfast Sponsorship

**£1,500 plus VAT (per day)**

- Branding on all materials via ICoTA and SPE, pre, during and post conference
- 1 free conference pass for both days

### Lunch Sponsorship

**£3,197 plus VAT (2 available)**

- Branding on all materials via ICoTA and SPE, pre, during and post conference
- 1 free conference pass for both days

### Social Event Sponsorship – Sold

**–Event Sponsorship (x3 available)**

**£1,050 + VAT**

- Branding on all materials via ICoTA and SPE, pre, during and post conference
- 1 free conference pass for both days

### Social Event Sponsorship

**– Sponsor a Beer**

**£840 + VAT**

- Branding on all materials via ICoTA and SPE, pre, during and post conference

### Lanyard Sponsor – Sold

**£3,465 plus VAT**

- Branding on all materials via ICoTA and SPE, pre, during and post conference
- 2 free conference passes for both days
- Can either provide own lanyards or they can be sourced at cost and re-charged back. Important that the lanyards are eco-friendly

### Coffee Breaks Sponsorship – Sold

**£2,625 plus VAT (2 available)**

- Branding on all materials via ICoTA and SPE, pre, during and post conference
- 1 free conference pass for both days

ICoTA Europe and SPE Aberdeen are both not for profit associations. They reinvest surplus funds to help support not only today's engineers, but also our future generation. Being involved in the SPE ICoTA European Well Intervention Conference will ensure that you receive an unmatched level of brand recognition for your company in front of an audience of industry peers. It will also ensure that you are recognised as being a key supporter in the development of our young engineers.

# Exhibition

The Conference will be accompanied by a major exhibition of all the latest intervention tools, technologies and services available to the market. Raise your profile and showcase your capabilities to major operators and service companies.

Exhibition space will be located in the high footfall catering area. Shell scheme or space only packages are available. Shell scheme packages include the frame, lights, company header and x1 power socket. With space only, you are paying for just the space and power and lighting will be extra.

| Item | Description                                             | Space Only | Shell Scheme |
|------|---------------------------------------------------------|------------|--------------|
| 1    | 3m x 2m stand + 1 free conference pass for both days    | £2777      | £2915        |
| 2    | 6m x 2m stand + 2 free conference passes for both days  | £4882      | £5216        |
| 3    | 9m x 2m stand + 3 free conference passes for both days  | £7171      | £7529        |
| 4    | 12m x 2m stand + 4 free conference passes for both days | £9208      | £9668        |

## Booking Information

**This is an excellent training opportunity not to be missed! All tickets include free parking, breakfast, coffees, lunch, networking reception and access to both the networking reception and social event with drinks.**

### Offers:

- **Early Bird – book by 1st October and receive discounted tickets**
- **Buy 1, invite an early career professional for free!\***
- **Buy 4 get 1 free**  
Contact [admin@icota-europe.com](mailto:admin@icota-europe.com) to receive an invoice.

*All ticket costs exclude VAT.*

### Invite an early career professional for free:

**We are offering you the chance to invite an Early Career Professional (≤10 years in industry) to attend the conference for FREE!**

For every full price ticket purchased, you may add an additional ticket of the same type for no additional cost. Select your ticket type and you will then be given the chance to add the free ticket option before checkout. This is your chance to support our future generation and inspire knowledge sharing.\*

*\*We define "Early Career Professionals" as those with 10 years' experience or less within the offshore energies industry. For every full price ticket purchased, you may add an additional ticket of the same type to be used by an early career professional. Offer only valid on full price tickets – this excludes the Student & Unemployed ticket type*

|                        | Early Bird – book by 1st October | Rate after 1st October |
|------------------------|----------------------------------|------------------------|
| Members 1 day          | £210                             | £240                   |
