## SEISMIC IN THE EVOLVING ENERGY LANDSCAPE

1 – 2 MAY 2024, P&J LIVE, ABERDEEN

### CALL FOR ABSTRACTS – DEADLINE 15<sup>TH</sup> DECEMBER

Seismic 2024 will cover the role of geophysics in the energy lifecycle from exploration, appraisal, development and production through to decommissioning and repurposing. The event will explore how seismic sustainably supports the UK's energy security and Net Zero obligations, and will aim to include hydrocarbons, renewables such as offshore wind and geothermal, carbon storage and advancing technologies in the seismic space.

**The committee particularly welcome abstracts on the following themes:**

- New acquisition and processing technology;
- Reservoir characterisation & QI;
- Innovation in 4D;
- Exploration in the Energy Transition;
- Shallow seismic, including for offshore wind and geohazards;
- Application of geophysics, including microseismic, for subsurface and ground condition characterisation e.g. decommissioning;
- Carbon storage projects, including site screening, characterisation, development and monitoring;
- Machine learning and automation in subsurface workflows;
- Use of geophysical data in other energies, such as geothermal and nuclear;
- Non-seismic methods including gravity and magnetics;

**Technology examples** and **case studies** related to conventional and near-surface seismic, supporting hydrocarbons, offshore wind, as well as carbon and gas storage site characterisation are encouraged.

If you have case studies or technologies to share with our audience which fall into these themes, then we invite you to submit a 200-word abstract for consideration for the 2024 programme via this form. If you have a geophysical paper that does not fall easily into these categories please also consider submitting for our technical committee to review. **We encourage the use of scientific colour palettes when displaying data** (please visit the [Seismic 2024 web page](#) for further guidance).

For any queries, contact the Events team on [aberdeen.events@spe-uk.org](mailto:aberdeen.events@spe-uk.org) or 01224 646311.

Please submit your abstract via [this form](#) or by scanning the QR code.

# SEISMIC 2024 – SPONSORSHIP OPPORTUNITIES

SPE Aberdeen and GESGB are not-for-profit organisations and raising sponsorship is vital not only for the successful delivery of the conference but to enable re-investment back into the industry. By supporting this event, not only are you providing an important knowledge sharing and training opportunity for the industry, but you are also supporting our future generation of young engineers and geoscientists through providing bursaries. Thanks to the generosity of our sponsors and exhibitors in 2023 we were able to make the conference more accessible by lowering the ticket price, offering free places for Early Career Professionals, and making attendance more affordable for universities.

## PLATINUM SPONSOR **£5,000**

- Five complimentary delegate passes
- Prime positioning of company branding across all event materials and opportunity to supply content for social media posts
- Opportunity to display a pop-up stand or banner in conference hall (to be provided by sponsor)

## EVENT SPONSOR **£3,000**

- Two complimentary delegate passes
- Company branding across all event materials and opportunity to supply content for social media posts.
- Opportunity to display a pop-up stand or banner in conference hall (to be provided by sponsor)

## LANYARD SPONSOR **£2,500**

- One complimentary delegate pass and 25% discount on an additional pass
- Company branding across all event materials
- Logo on lanyard (to be provided by sponsor or can be sourced at a cost)

## EARLY CAREER PROFESSIONALS
