

Shared learnings, multiplied savings - Balancing efficiency, integrity and investment 13-14 June 2017, AECC

Topsides UK will provide a high quality, valuable technical conference and exhibition for Operators and Supply Chain to share learnings and best practices; encourage discussion on how to balance efficiency, integrity and investment. Building on industry established forums such as Production Efficiency Taskforce (PETF), and incorporating feedback given during discussions with subject matter experts from the Operators, the conference aims to explore the key areas currently affecting Topsides operations.

This year's conference will also include a new and exciting Technology Showcase session, where innovative products and services from within the supply chain will be presented and discussed in short, snappy 5 minute slots. This conference is an excellent opportunity to review operator lessons learned, expand knowledge and undertake continued professional development.

Featuring 10 Operator case histories, with highlights including:

- **Defining a long-term TAR strategy** - BP
- **Morecambe Hub DP6/8 Maintenance & Simplification Campaign** - Centrica
- **The Benefits of Integrated Operations at ConocoPhillips** - ConocoPhillips
- **Hydrocarbon containment: translating data into action** - Maersk Oil
- **Charlie Ultra Late Life: A Journey in Optimising for Platform Decommissioning** - Shell U.K. Ltd
- **Integrity Under a Microscope** - TAQA

Technical Programme Day 1

8.00		Registration	
8:30	8.50	Opening Address	Oil and Gas Authority
8.50	9.10	Keynote - Keith Muirhead	Airbus
9.10	9.30	Morecambe Hub DP6/8 Maintenance & Simplification Campaign	Centrica
9.30	9.50	Integrity Under a Microscope	TAQA
9.50	10.05	Panel Discussion	
10.05 - 10.30		Break	
10.30	10.50	Wireless Sensor Monitoring of Cathodic Protection Solutions	Proserv
10.50	11.10	Long-Term Integrity of Engineered Composite Repairs	Health and Safety Executive
11.10	11.30	Hydrocarbon Containment: Translating Data into Action	Maersk Oil
11.30	11.50	FRACAS (Failure Reporting, Risk Analysis & Corrective Action System) a New Dimension to Reliability	Enkelt
11.50	12.05	Panel Discussion	
12.05 - 13.05		Lunch	
13.05	13.25	Maintaining and Improving Integrity of Corrosion Monitoring Fittings on Ageing Assets	ICR
13.25	13.45	A Structured Approach to Offshore Crane Maintenance	EnerMech
13.45	14.05	Non-Invasive Inspection (NII) of Pressure Vessels	ConocoPhillips
14.05	14.25	Panel Discussion	
14.25 - 14.55		Break	
14.55	15.15	Maintaining & improving Integrity in a Low Cost Oil Environment	Oil and Gas Technology Centre
15.15	15.35	Safety Enhancements and OPEX Savings from Appropriate Installation of Flexible Deluge Pipework	TAQA
15.35	15.55	Heavy Reduction of CAPEX on Offshore Production Platforms/Vessels by Use of Digitalization Solutions	Siemens
15.55	16.15	Digitization or Smart Use of Readily Available Operational Data	NOV
16.15	16.35	Oil and Gas Separation Issues	Tracerco
16.35	16.50	Panel Discussion	
16.50	17.15	Technology Showcase <ul style="list-style-type: none"> Oilfield Technology and International Simplicity Reduction in Time Taken to Decontaminate Process Plant for Manned Entry Non-Intrusive Inspection (NII) of Topside Assets with Advanced MEC Technology A Novel Approach to Gas Metering During Well Testing, Utilising a Variable Differential. 	ThinJack Denholm Macnamee Ltd Innospection GM Flow Measurement Services Ltd
17.15		Networking Reception sponsored by Centrica

Technical Programme Day 2

8.00		Registration	
8:30	8.50	Herding Cats and Burning Ferrari's - an Operator Insight into Achieving and Maintaining a Sustainable Business in a Low Cost Oil Environment	TAQA
8.50	9.10	Enlightened Management and the Role of a Manager	Cougar Automation
9.10	9.30	Worst to First—How One Leader's Focus on Culture Enabled a Remarkable Organization Turnaround	Wilson Perumal
9.30	9.50	Treat Reliability like Safety	ConocoPhillips
9.50	10.20	Panel Discussion	
10.20 - 10.50		Break	
10.50	11.15	Brent Charlie Ultra Late Life: A Journey in Optimising for Platform Decommissioning	Shell U.K. Ltd
11.15	12.00	Technology Showcase <ul style="list-style-type: none"> – Improving Safety and Efficiency with Offshore Technology – Driving Efficiencies by Adopting Mechanical Connectors as a Cold-Work Solution for Permanent Pipe Connection – Bulk Water Removal System - Produced Water Debottlenecking to Unlock Production – "Access" All Areas – New Technology for Topsides Solids Removal and Production Optimization – Motivating the Market for Remote Production Efficiency Improvement, and Marginal Gains with Digital Technology. 	Amec Foster Wheeler Stats Group Expro Group AquaTerra Fourphase Intelligent Plant
12.00 - 13.00		Lunch	
13.00	13.20	The Benefits of Integrated Operations at ConocoPhillips	ConocoPhillips
13.20	13.50	Remote Operations: Reducing OPEX, Improving Safety and Increasing Efficiency	Servelec Group
13.50	14.10	Delivering Integrity Solutions to Support Operations & TAR's	GE Group
14.10	14.30	Being Predictable and Avoiding TAR Overruns	BP
14.30	14.45	Panel Discussion	
14.45 - 15.10		Break	
15.10	15.30	Increased Throughput Through Optimisation of Mature Assets	NOV
15.30	15.50	Maximising Volumes and Performance Using Plant Models	Genesis
15.50	16.10	A Comparative Study of Production Efficiency Improvements Between the UKCS Production Platforms and Other Global Extractive Industries.	Imrandd
16.10	16.30	Defining a Long-Term TAR Strategy	BP
16.30	16.50	Panel Discussion	
16.50		Closing Remarks - Ian Phillips, Chair of SPE Aberdeen

Raise your profile

While the Topsides UK conference offers the perfect platform to share case studies and lessons learned, the exhibition will showcase the latest technology and services, some of which have only just been brought to market.

Industry experts will be on hand to share knowledge and expertise, offering Operators and Tier 1 contractors the chance to be amongst the first to adopt new methods and technologies, and perhaps go on to form the case studies of Topsides UK 2018.

A limited number of partnership opportunities are available, including:

- Event Partner £5,000 + vat
(includes 3m x 2m stand and four conference passes)
- Delegate Bag Sponsor £1,500 + vat
- Lanyard Sponsor £1,500 + vat
- Lunch Sponsor £1,500 + vat
- Breakfast Sponsor £800 + vat

Exhibition packages are still available, with some options listed below, and which include one or more conference passes.

- 3m x 2m stand with one free delegate place
£1,250 + vat
- 6m x 2m stand with two free delegate places
£2,250 + vat
- 9m x 2m stand with three free delegate places
£3,410 + vat
- 12m x 2m stand with four free conference places
£4,450 + vat

Benefits of partnership include:

- Excellent training/continuous professional development opportunity for your staff
- Branding across all promotional materials relating to the conference
- Brand exposure via SPE Aberdeen and Topsides UK marketing channels
- Discount on additional delegate places and exhibition space
- Opportunity to take part in pre-event promotional activity (press releases, filming, blogs, opinion pieces)

For more information on these opportunities please contact aberdeen.events@spe-uk.org or call our events team on 01224 646311.

Topsides UK is a not-for-profit conference, jointly organised by SPE Aberdeen and Mearns & Gill. Any surplus funds raised are reinvested to help support various initiatives and in particular, to help support our future generation of young engineers. Take advantage of high profile sponsorship and exhibitor opportunities, which provide the perfect platform to showcase your innovations and ideas to major Operators, service companies and decision makers. Visit www.topsidesuk.com for more information.

*The organisers reserve the right to amend the programme as necessary – see website for updates on the programme timings or further details.
