

PETROLEUM ECONOMICS CONFERENCE 2018

11th December 2018
Aker Solutions, Aberdeen

CONFERENCE TECHNICAL PROGRAMME

The SPE Aberdeen Petroleum Economics Conference sponsored by Aucerna is focussed on upstream planning, investment decisions criteria & tax implications in UKCS.

The first conference of its kind will benefit from bringing together operators, solutions providers, financial firms & consultants to share their knowledge and workflow with peers and wider industry.

The conference will promote active conversation of economics assessment of UKCS and its future with impact of decommissioning & way forward for the industry in UKCS.

Attendees will hear about the latest updates in tax policy with respect to Transferable Tax History and ongoing work in asset stewardship. Representatives of regulators and industry experts will provide guidelines with discussion session to address issues and concerns. Active participation is expected.

To view the technical programme, see overleaf.
