SPE Aberdeen Section Media Pack 2021

About Us

SPE an individual-member organization serving managers, engineers, scientists and other professionals worldwide in the upstream segment of the oil and gas industry.

Formed in 1957, the SPE global membership has now reached over 140,600 members in 144 countries participate in 207 sections and 368 student chapters. SPE's membership includes more than 68,000 student members.

The Aberdeen Section is one of the largest of the SPE sections across the world. The section has over 1500 members ranging from drilling and completions engineers to production and operations specialists, HSE practitioners, and other professionals. The section also serves over 400 student members from 5 student chapters.
