

# Using operational data to unlock your emissions 'best day'.

James Shannon, VP Business Development, OPEX Group

# 7.5%

The way that facilities are operated **can affect operational emissions and costs by as much as 7.5% per year...**

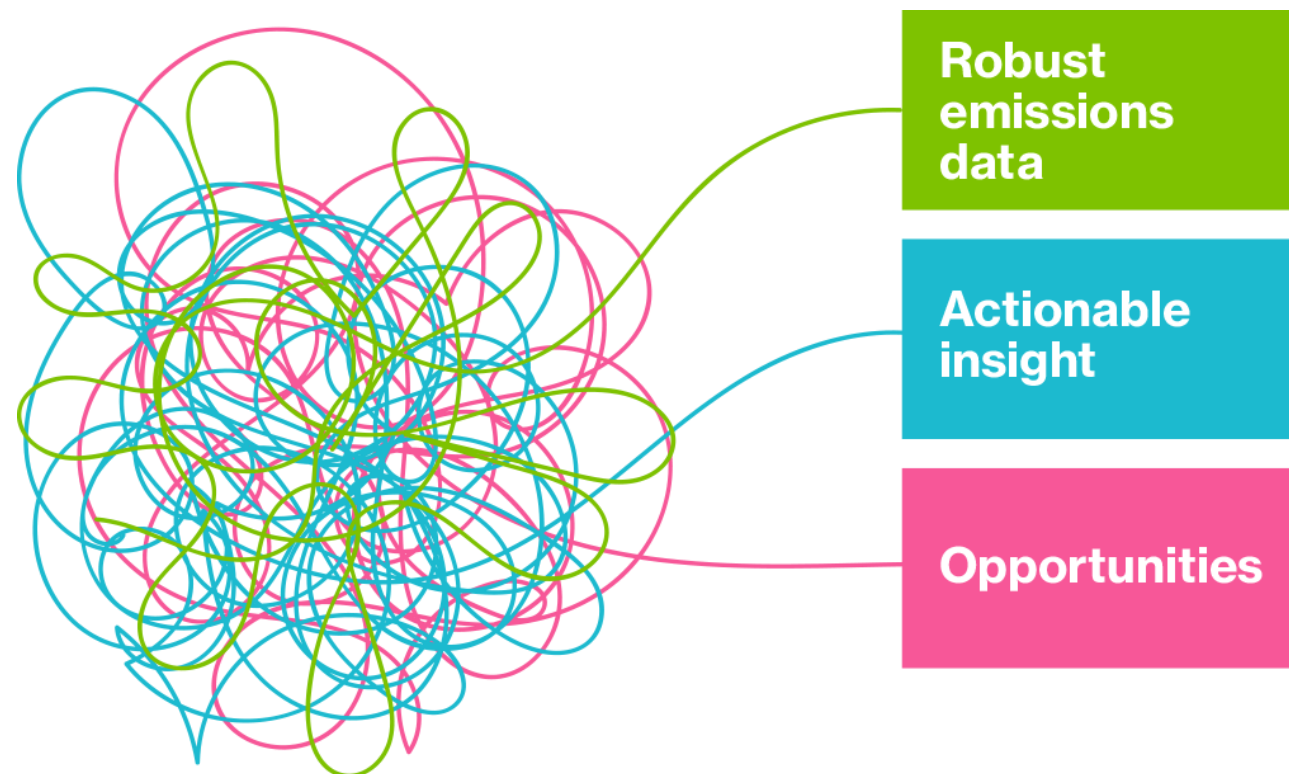

# Where are you on your decarbonisation journey?

## How are you moving from *Promise* to *Action*?

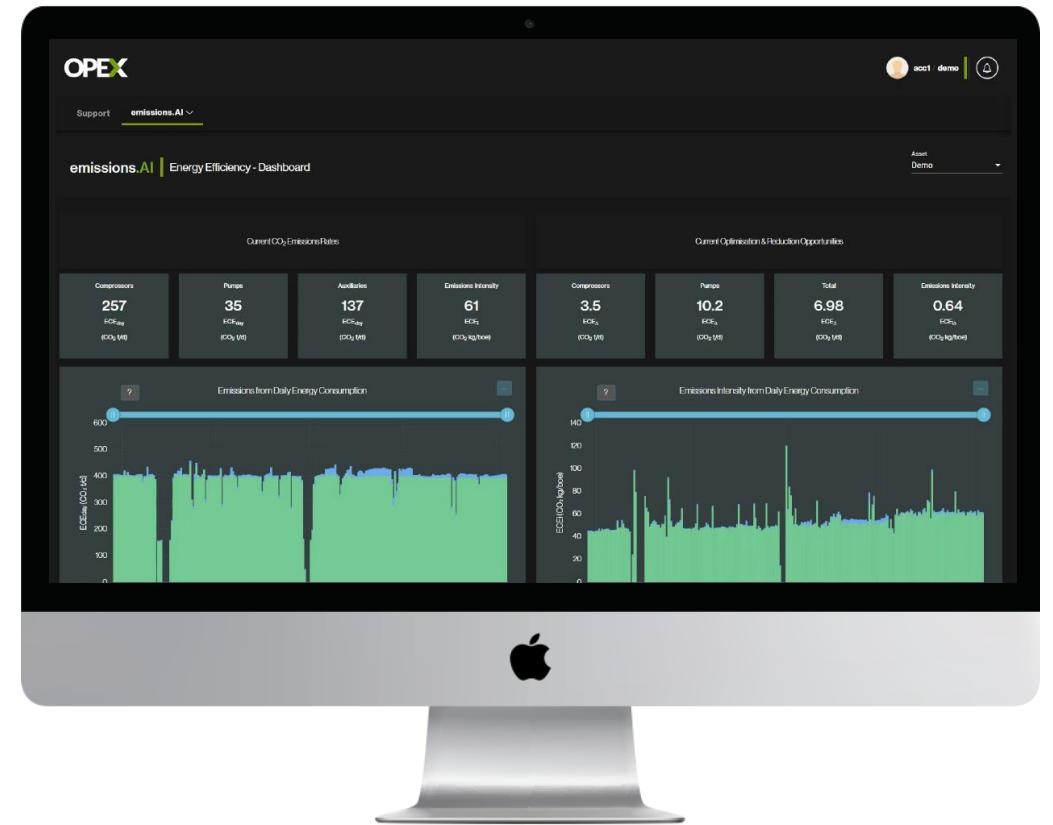

# Unravelling the complexity in your data

---

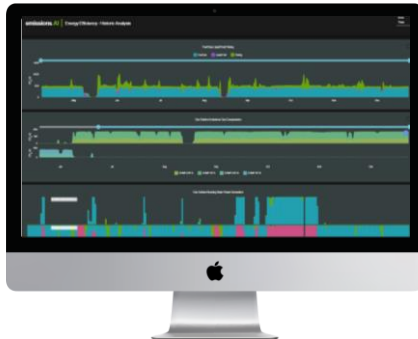

# emissions.AI

A digital solution that helps carbon intensive companies to decarbonise their operations and reduce emissions, energy and fuel costs.

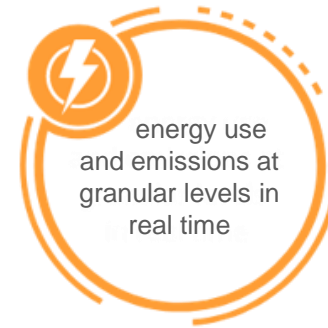

**emissions.AI**

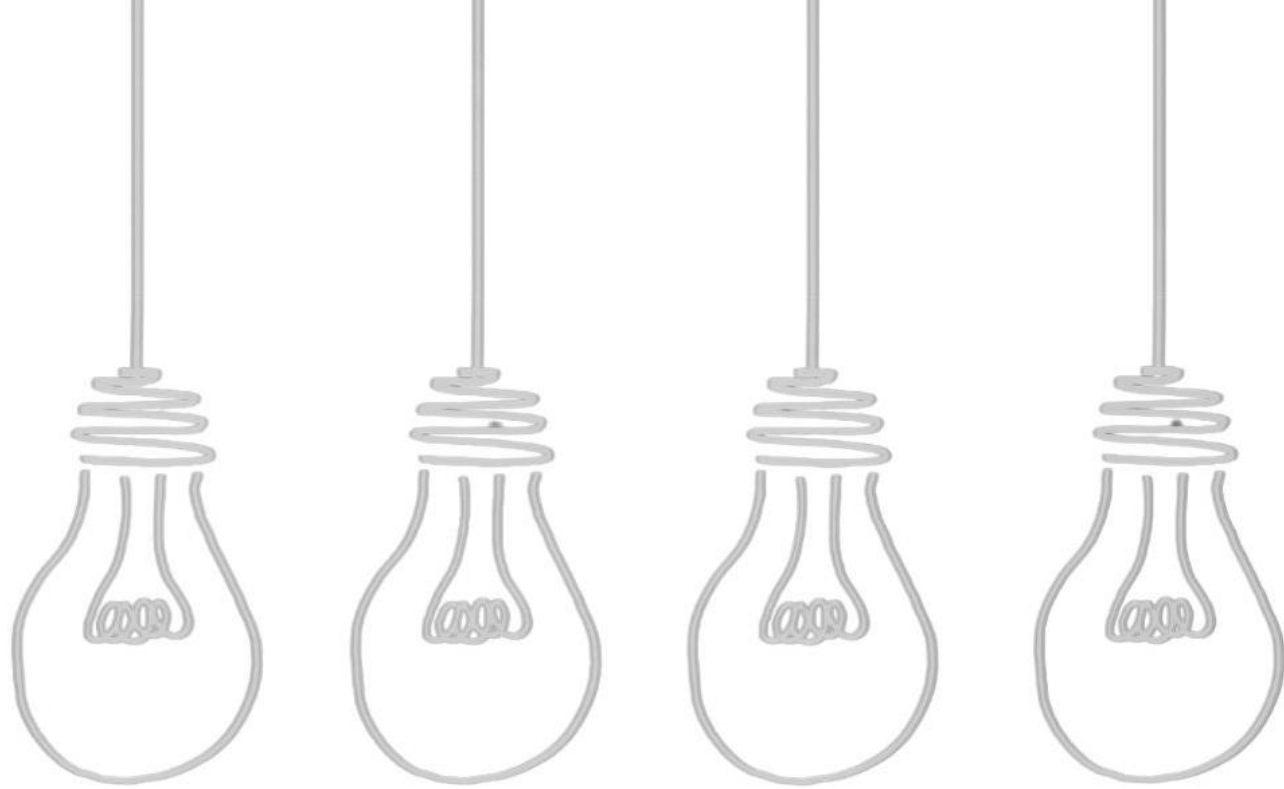

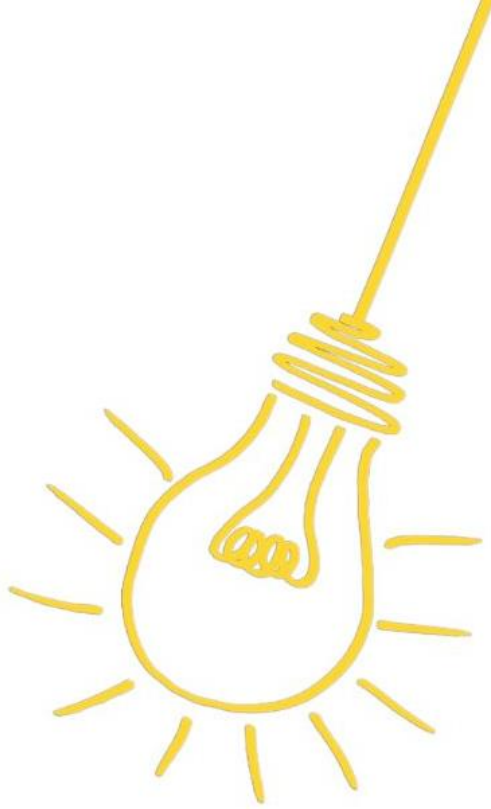

Engineering first principles  
+ Advanced analytics + AI

# Some examples

---

make a difference

# Thank You.
