

SPE ICoTA 28th European Well Intervention Conference

P&J Live, Aberdeen 16th – 17th November 2022
After nearly 3 years, we are back in-person!

Platinum Sponsors

Technical Programme

“We are looking forward to welcoming you back to our first in person conference in almost 3 years. This year we will focus on two main themes: Raising the Potential of Existing Fields on day 1 and Well Intervention Technology for a Low Emissions Future on day 2. As well as the fantastic presentations we have in our programme, do not miss the opportunity to engage and network with a room full of like-minded peers from the intervention community.” - **Elizabeth Muir, 2022 Conference Chair**

Why Get Involved?

- Largest and longest established conference of its kind in Europe
- Original Operator stand – talk to 10 Operators across two days
- High quality presentations with numerous Operator case histories
- Panel sessions, short techbytes and e-poster sessions
- Exhibition showcasing the latest technologies
- Cost effective training counting towards CPD
- Support the industry – ICoTA Europe and SPE Aberdeen are not for profit associations

Our Keynotes

We are delighted that **Simon Roddy**, Senior Vice President Upstream at Shell U.K. Ltd and **Marie Morkved**, NNS Production Optimisation Manager, TotalEnergies are our Day 1 Keynotes. **Stuart Ferguson**, Chief Executive of FrontRow Energy Technology Group will be our Keynote for Day 2.

The Operator Stand

The Operator stand will be back this year, to offer you the chance to collaborate, network and promote new and established techniques in intervention technology to a much wider group of Operators. Make sure you visit the stand and tell the Operators what you can provide. The Operator timetable will be published on LinkedIn along with each Operators top 3 current issues to help in offering targeted solutions. Operator Stand, sponsored by Repsol Sinopec.

ICoTA Award for Innovation & Technology

Celebrating excellence in the well intervention industry, the ICoTA Award is presented to a service company or Operator that has pushed the boundaries of well intervention technology. The winner(s) will be announced on Day 1 at 12:35 in the Conference Hall.

Our Keynotes

DAY 1 – WEDNESDAY 16TH NOVEMBER

SIMON RODDY, WELLS TASK FORCE CO-CHAIR & SENIOR VICE PRESIDENT UPSTREAM, SHELL U.K.

Simon leads the Shell UK Upstream business, a major operated business with a diverse workforce engaged in exploration, production, new investments, decommissioning and energy transition activities across the offshore North Sea and onshore gas processing. Simon is a Board member of the industry body Offshore Energies UK (OEUK) and a member of the North Sea Transition Forum. He also represents Shell on the Board of Shell's ScotWind JVs with SPR.

He has had a varied background in technical and senior management roles working with Shell for over 25 years across UK, Malaysia, Singapore, New Zealand, Netherlands and Nigeria. He returned to the UK in 2021 after 3 years as Deputy Managing Director of SPDC, where he was responsible for the safe operational business of the largest oil and gas producer in Nigeria. Simon joined the Shell Group in 1993 as a Petroleum Engineer, and prior to joining SPDC he has held a variety of roles. More recent positions have included Vice President of Safety and Environment for Shell's global Upstream business and Shell Upstream Vice President of Cost Leadership, focusing on Shell's global response to the 2015-16 low oil price environment.

Simon has a degree in Physics from the University of Bristol, and a MBA from INSEAD.

MARIE MORKVED, WELLS TASK FORCE RESERVOIR AND WELLS OPTIMISATION GROUP LEAD AND NNS PRODUCTION OPTIMISATION MANAGER, TOTALENERGIES

Marie has a MSc in Mechanical Engineering from the University of Trondheim Norway, and a MSc Petroleum Engineering at Imperial College UK.

She started out as a field engineer with Schlumberger worked up to Sr. coiled tubing instructor. Then about 10 years as a petroleum engineer mainly with BP (Azerbaijan & Egypt). Moved over to Maersk in 2010 and stayed with them until TotalEnergies takeover in 2018.

Now leading a multi-disciplinary team working on production Optimisation in a mature asset for TotalEnergies. In addition to her Role, Marie sits on the Diversity and inclusion taskforce and is also an active mentor in the mentoring program at TotalEnergies.

DAY 2 – THURSDAY 17TH NOVEMBER

STUART FERGUSON IS CHIEF EXECUTIVE AT FRONTROW ENERGY TECHNOLOGY GROUP LTD

Stuart Ferguson is Chief Executive of FrontRow Energy Technology Group Ltd, a group of oilfield technology companies focused on driving cost reduction through innovative products and workflows. Prior to the formation of FrontRow, Stuart was non-executive director of several international companies specialising in oilfield technology, ranging from large public corporations to small start-ups. Stuart's portfolio included Aker Solutions ASA, Borets International Ltd, Peak Well Systems Pty Ltd, I-Pulse Inc, and Zi-Lift AS.

Until 2010, Stuart spent ten years at Weatherford International Ltd, a large oilfield services provider, with most of that time as Senior Vice President and Chief Technology Officer. Before joining Weatherford, Stuart worked for several oilfield services and operating companies, having started his career as a petroleum engineer with BP in 1987.

SPE ICoTA 28th European Well Intervention Conference – Technical Programme

DAY 1 - WEDNESDAY 16TH NOVEMBER

THEME – RAISING THE POTENTIAL OF EXISTING FIELDS AND MAXIMISING PRODUCTION USING AN INTEGRATED APPROACH		
07:30	REGISTRATION – BREAKFAST AND NETWORKING IN EXHIBITION HALL	
08:30	OPENING REMARKS	Elizabeth Muir, Conference Chair 2022, Shell U.K. Ltd
	Session Chairs – Elizabeth Muir, Shell U.K. Ltd & Mark Oatey, Harbour Energy	
08:35	KEYNOTE OPENING SESSION – WELLS TASK FORCE	
	Keynote 1 - Simon Roddy	Wells task force Co-Chair & Senior Vice President Upstream, Shell U.K.
	Keynote 2 - Marie Morkved	Wells task force Reservoir and Wells optimisation Group Lead and NNS Production Optimisation manager, TotalEnergies
09:20	Q&A	
09:35	Show me the money (... and the results)!	Fraser Proud, NSTA
10:00	Using Autonomous ICDs to Maximize Oil Recovery from the North Sea Machar Field	Greg Stewart, BP, James Hoad, BP, Anna Petitt, Tendeka.
10:25	REFRESHMENTS, DIGITAL POSTERS AND NETWORKING IN EXHIBITION HALL	
10:50	The value of technology, expertise, cross company collaboration and integrated delivery to well intervention operations.	Odd Einar Magnussen Tor, Altus Intervention Kristian Holst, Equinor
11:15	Capillary String for Continuous Downhole Water Injection to Prevent Downhole Salt Deposition	Benjamin Lai, Total Energies Netherlands
11:40	Annulus Intervention, An Entirely Different Animal – The First Technology In The World To Allow Direct Access To A Well Annuli	Neil Ferguson, Expro
12:05	TECHBYTE SESSION - FEATURING FIVE SHORT PRESENTATIONS IN THE CONFERENCE HALL	
12:35	ICOTA AWARD FOR INNOVATION & TECHNOLOGY	Presented by Mark Oatey, ICoTA Europe Chair
12:50	LUNCH, DIGITAL POSTERS AND NETWORKING IN EXHIBITION HALL	
	Session Chairs – Keith Dempsey, NOV and Kenny McAllister, Seal-Tite	
13:50	Maximize value of existing hubs/infrastructure: Better resource utilization and increased oil recovery with the use of an Intervention rig	Tora Must Hatlebakk, AkerBP
14:15	E-line milling with Continuous Variable Force removes Stellite-coated flow target	Nicolas Wibbelmann, TotalEnergies E&P UK, Blair McCombie, Oilenco and Andy Jessiman, Welltec UK
14:40	Benefits of HWO for Live Well Intervention	Ross Forrest, WellGear
15:05	Reinvent Your Intervention with the UST Thru-Wired Stroker – Logging and sleeve shifting Performed in One Run for BP	Daniel Sorensen, Schlumberger Erin Marshall, BP
15:30	REFRESHMENTS, DIGITAL POSTERS AND NETWORKING IN EXHIBITION HALL	
16:00	A collaborative approach to bring new technology to the market with NZTC and RSRUK	Bronson Larkins, Wellvene & Scott Dunn, Repsol Sinopec Resources Ltd
16:25	Case Study of Scale Removal in J29, a Scott platform production well	Rosaura Heath, CNOOC International
16:50	BaSO4 Scale Milling Success with a WBCO system - E-line Milling and Auger Collection on the Dunbar Mature Asset	Craig Sturrock, TotalEnergies, Owen O'Donnell, Altus Intervention
17:15	CLOSING REMARKS	
17:20	NETWORKING RECEPTION	

SPE ICoTA 28th European Well Intervention Conference – Technical Programme

DAY 2 - THURSDAY 17TH NOVEMBER

THEME - WELL INTERVENTION TECHNOLOGY FOR A LOW EMISSIONS FUTURE		
07:30	REGISTRATION - BREAKFAST AND NETWORKING IN EXHIBITION HALL	
	Session Chairs - Lewis Murray, Wellbore Integrity Solutions & Annabel Green, Well-SENSE	
08:30	KEYNOTE PRESENTATION	
	It's the end of the world as we know it	Stuart Ferguson, Chief Executive, FrontRow Energy Technology Group
09:00	Net Zero Technology Centre Update	Doug Forbes, NZTC
09:25	Dual-String Barrier Evaluation Lowers Cost and Carbon Footprint	Robert Loov, Schlumberger
09:50	UK first use of new Shallow Application Slickline System – minimising the offshore footprint and achieving well-to-well transfer in only 40 minutes.	Neil Emslie, Harbour Energy Kevin Mather, Wellvene
10:15	REFRESHMENTS, DIGITAL POSTERS AND NETWORKING IN EXHIBITION HALL	
10:45	Italy workover rig connected to oil centre electrical grid	Adebola Ogunremi, TotalEnergies
11:10	First subsea well intervention operations using coiled tubing from a monohull vessel in Norway	Andreas Hallingstad, AKOFS
11:35	Challenges and risk management for safely surveying CO2 storage wells.	Kevin Rose, Well-SENSE
12:00	TECHBYTE SESSION - FEATURING FIVE SHORT PRESENTATIONS IN THE CONFERENCE HALL	
12:30	LUNCH, DIGITAL POSTERS AND NETWORKING IN EXHIBITION HALL	
	Session Chairs – Erin Marshall, BP & Bronson Larkins, Wellvene	
13:30	The Digitalisation of Well Intervention Operations	Graeme Cowie & Maisa Monteiro Da Cunha, TotalEnergies
13:55	A Return to Production: Subsea Packer Leak Remediation with Pressure-Activated Sealant SPE-210607-MS	Kenny McAllister, Seal-Tite UK LLC in association with Shell Exploration and Production
14:20	Enhancing and decarbonising subsea oil and gas developments through the use of a subsea deployable system to provide additional remotely operated safety valve functionality to in situ subsea trees.	Thomas Mcilroy, One Subsea
14:45	Intervention based wireless safety valve technology restores production on shut-in well	Connor Adam, Harbour Energy, Paul Lynch, Tendeka
15:10	REFRESHMENTS, DIGITAL POSTERS AND NETWORKING IN EXHIBITION HALL	
15:40	Case histories for the Live Well Deployment of Retrievable ESP Systems	Graeme Fyfe, Access ESP
16:05	First deployment of a propellant cutter and puncher in a wellbore	JJ Welsh, SPEX, Daniel Tomczak, AkerBP
16:30	Slickline deployed high strength fibre optic cable provides valuable production profile data for Culzean C3 High Temperature Gas Well	Danu Dirya, Total Energies, Al Barnes, Expro
16:55	CLOSING REMARKS	

Techbyte Sessions

Techbyte's are 5-minute technology-focused presentations that will take place in the Conference Hall.

DAY 1 – 12:05

Cutting Time & Cost in Shallow Plugging Operations with the Unity Surface Intervention System	Stuart Slater	Unity
Hydrofluoric (HF) Subsea Mixing System	John Blair	IKM
World First N2 unloading of well using CoilHose™ on Riserless Well Intervention vessel	Tommy Larsen	Expro
Is it possible to double production from existing wells through intervention?	Tom Rune Koloy	NOV
Blue Spark Energy: Increasing Pulse Potential for Improved Well Intervention	Chris McKenzie	Blue Spark

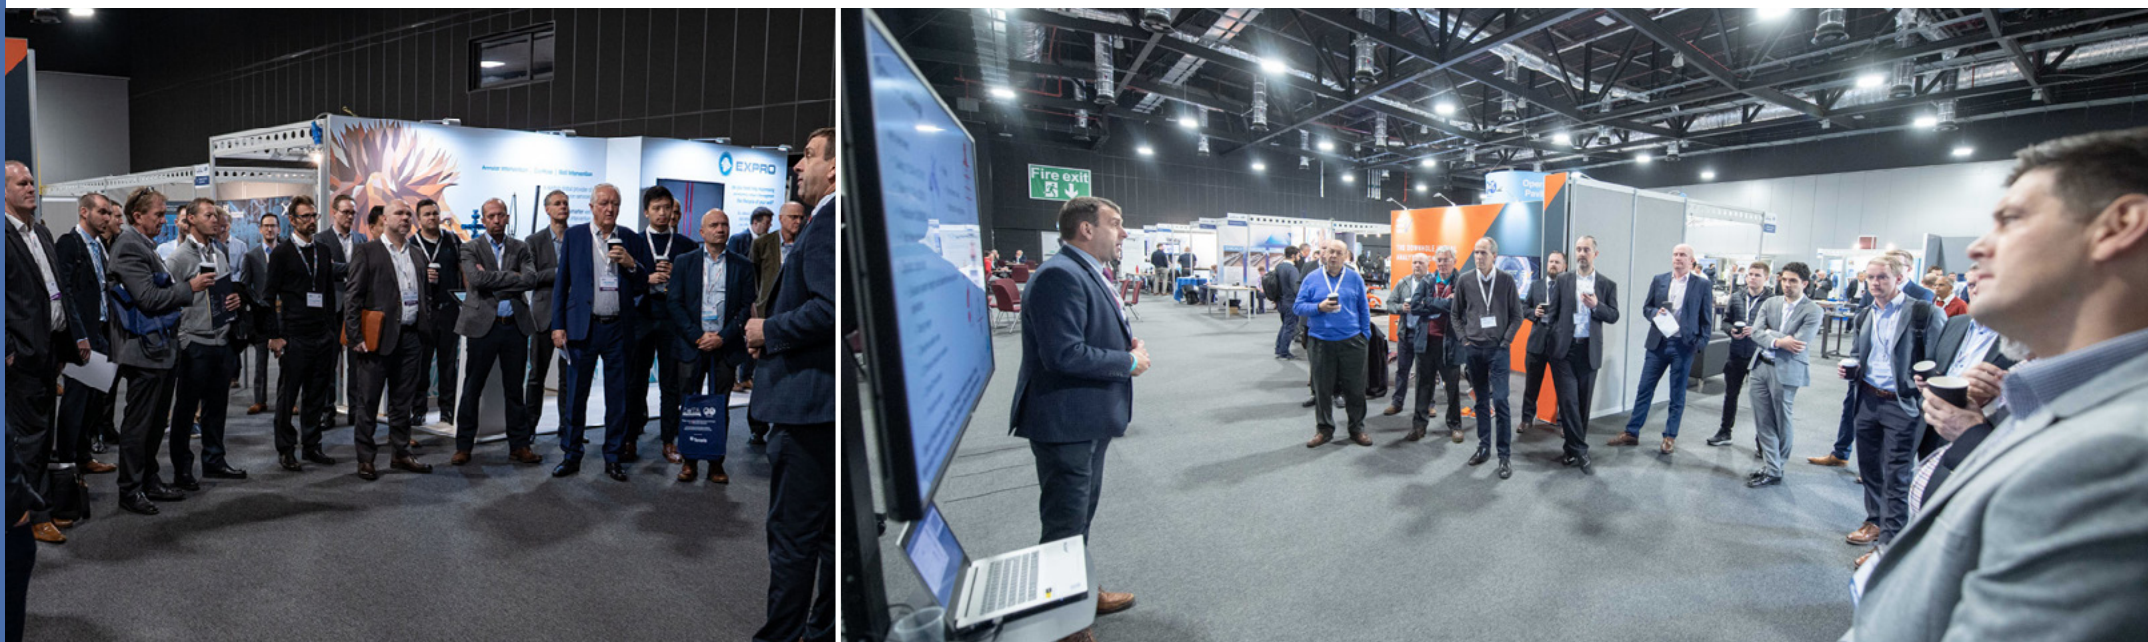

DAY 2 – 12:00

Ground Breaking Rigless Packer Repair	Paul Carragher	Bisn
Advancements in Remedial Sand Control Solutions - Successful deployment in three well campaign	Eilidh McKay	Tendeka
Breaking the extreme extended reach intervention barrier using a carbon composite rod to gather production logging data from a total depth of 40,600ft (12,375m).	Duncan Troup	Archer
Improve Operational Assurance: Optimised CTCO (Coiled Tubing Clean Out) clean-out With Continuous Solids Removal and Real-time Solids Data	Neil Meldrum	FourPhase
Reduce your carbon output, extend working life, and reduce cost of your existing wireline winch assets with diesel to electric conversion.	David Devine	NOV

Digital Posters

Digital Poster presenters will be at their posters during the breaks and lunch in the exhibition hall - schedule is below:

DAY 1			
AM Break	A holistic approach to cemented barrier verification using both passive and active acoustic technologies brings unprecedented confidence to P&A leakage compliance.	Duncan Troup	Archer
Lunch – 13:20	In-Pipe Rover solution for packer cement displacement	Binh Nguyen	Vallourec
PM Break	Low Cost Intervention System	Kevin Rose	Well-Sense
DAY 2			
AM Break	Comprehensive design and process engineering support to ensure production continuity using standard yet customizable surface well test equipment.	Simon Shiels	Schlumberger
Lunch – 13:00	A New Type of Flow Meter for Measuring Liquid and Gas Flows in Well Services Applications	Gavin Munro	GM Flow
PM Break	High Resolution Solid State Acoustic Imaging for Advanced Well Integrity	Karl Klaudi	DarkVision

ICoTA Europe and SPE Aberdeen are both not for profit associations. They reinvest surplus funds to help support not only today's engineers, but also our future generation. Being involved in the SPE ICoTA European Well Intervention Conference will ensure that you receive an unmatched level of brand recognition for your company in front of an audience of industry peers and customers. It will also ensure that you are recognised as being a key supporter in the development of our young engineers.

Sponsorship Opportunities

Event Partner £3,300 plus VAT

- Branding on all materials via ICoTA and SPE, pre, during and post conference
- 25% discount on exhibition space
- 3 free conference passes x2 days'

Breakfast Sponsorship - Day 2 £1,500 plus VAT (per day)

- Branding on all materials via ICoTA and SPE, pre, during and post conference
- 1 free conference pass x 2 days'

Sponsorship of Lunch £2,900 plus VAT

- Branding on all materials via ICoTA and SPE pre, during and post conference
- 1 free conference pass x 2 days'

Sponsorship of Coffee Breaks £2,900 plus VAT

- Branding on all materials via ICoTA and SPE pre, during and post conference
- 1 free conference pass x 2 days'

Table Top Display Stand opportunity in the exhibition hall £1,800 plus VAT

- Branding on all materials via SPE and ICoTA, pre, during and post conference
- 1 free conference pass x 2 days'

Exhibition Stand Space

Only a few spaces available

The Conference will be accompanied by a major exhibition of all the latest intervention tools, technologies and services available to the market. Raise your profile and showcase your capabilities to major operators and service companies.

Exhibition space will be located in the high footfall catering area.

Item	Description	Cost
1	3m x 2m stand + 1 free conference pass	£2,295 + VAT
2	6m x 2m stand + 2 free conference passes	£4,050 + VAT
3	9m x 2m stand + 3 free conference passes	£5,940 + VAT
4	12m x 2m stand + 4 free conference passes	£7,695 + VAT

Thank you to our ICoTA Europe Champions.

Booking Information

- Bookings can be made via www.icota-europe.com/events
- All costs exclude VAT and Eventbrite booking fees'
- Costs include breakfast, lunch, coffees and networking refreshments
- Parking at the venue is included
- Group Discount – Book four or more places online and get a fifth FREE!

	SPE/ICoTA Members 1 Day	SPE or ICoTA Members 1 Day (inc ICoTA Membership to 31st Dec 2023)	Non Members 1 Day	SPE / ICoTA Members 2 Days	SPE or ICoTA Members 2 Days (inc ICoTA Membership to 31st Dec 23)	Non Members 2 Days	Students 1 Day	Students 2 Days	Exhibition Pass 1 Day	Exhibition Pass 2 Days
Early Bird by 14 Oct	£315	n/a	£370	£410	n/a	£525	£50	£80	£80	£120
Paid after 14 Oct	£390	£420	£450	£470	£500	£575	£50	£ 80	£120	£170
